RESOLUTION.—*The 22nd September 1862.*

READ Act No. V. of 1861.

Read Resolution of the Right Hon'ble the Governor General of India in Council, in the Home Department, dated the 4th November 1861, No. 2005.

The Lieutenant-Governor is pleased to prescribe the following Rules for regulating the administration of the Police in those Districts to which Act No. V. of 1861 has been, or may hereafter be, extended:—

1. The administration of the Police throughout the local jurisdiction of the Magistrate of the District is vested in the District Superintendent of Police under the general control and direction of the Magistrate. The District Magistrate has no authority to interfere in the internal organization and discipline of the Police Force, but in other respects his position in relation to the Police is not materially changed. The District Superintendent is in effect an aid to the Magistrate for the superintendence of the Police of the District.

2. The Commissioners of Divisions will continue to exercise the same supervision over the Magistrates in respect to the administration of Police and Criminal Justice which they have hitherto exercised as Superintendents of Police; but they will not in any way interfere with the details of the organization of the Police. Commissioners of Divisions must bear in mind that they are responsible, as heretofore, for the entire executive administration of their Divisions.

3. The Inspector-General will confine his attention principally to the general control, and the Deputy Inspectors-General to the inspection and discipline, of the Police Force. The Inspector and Deputy Inspectors-General should be moving about from District to District for at least eight months in the year.

4. The District Superintendent is the Head of the Police Force employed in the District. He is, therefore, responsible to the Magistrate for the efficient performance of the duties devolving upon the Force. It is his duty to see that all orders of the Magistrate, or other competent authority, are promptly and correctly carried out.

5. All Reports which the Law requires to be made to the Magistrate of the District, or to a Magistrate having jurisdiction, must generally be made by the subordinate Police to the District Superintendent or Officer acting on his behalf; and it will be the duty of the Superintendent or other Officer either to pass orders thereon, or, if beyond his competence to deal with, to lay all such Reports, and all information and Returns, before the Magistrate. The subordinate Police may, however, report direct to the Magistrate when necessary.

6. All orders of the Magistrate to the subordinate Police will be conveyed to the Head Officer of Police in attendance in the Court of the Magistrate for communication to the subordinate Officers concerned. The orders of the Magistrate will either be in the shape of Warrants, Summons, Subpoenas, or other process, or will take the form of specific instructions on special points.

7. All orders other than Warrants or other processes will be entered in an Order Book to be kept for the purpose in each Magistrate's Court. They will thus come regularly under the notice of the District Superintendent, who should, if possible, have his Office in the Magistrate's Cutcherry. Warrants or other processes will be entered in the Register in a form to be prescribed by the Inspector-General.

8. In communicating orders to the District Police it is not necessary that separate orders or Perwannahs should be addressed. All that is requisite is to send each Inspector an extract from the Order Book containing all orders applicable to him that have been issued during the day. These extracts, when received by the Police Officer to whom they are addressed, will be entered, according to date of receipt, in his Station Order Book, and, as soon as the orders have been carried out, the extract will be returned with a brief endorsement shewing the manner of execution.

9. It will be necessary to bear in mind the distinction between the "Magistrate of the District" and "a Magistrate." The "Magistrate of the District" is the Chief Officer charged with the Executive Administration of the District in Criminal matters; "a Magistrate" includes all persons exercising any of the powers of a Magistrate, such as Joint, Assistant, and Deputy Magistrates.

10. The District Superintendent will, without delay, inform the Magistrate of the District of any circumstance within the knowledge of the Police likely to lead to a disturbance or breach of the peace. Should any difference of opinion, on any question relating to Police Administration, arise between the District Superintendent and the Magistrate of the District, it is the duty of the District Superintendent to carry out the Magistrate's instructions and to request the Magistrate to refer the point under dispute for the orders of the Commissioner, who will decide all such references, communicating, when necessary, with the Inspector or Deputy Inspector-General. Any Officer of the Police who is dissatisfied with the decision of the Commissioner may submit his case to the Inspector-General.

11. It must be borne in mind that, with the exception of the Magistrate of the District, no Magisterial Officers, whether in charge of a Sub-Division or not, are vested with any controlling authority over the Police. As Judicial Officers they will try all cases brought before them by the Police, and will issue processes in the manner above described in such cases, or in cases instituted before them on the formal complaint of a private party. If a subordinate Magistrate is of opinion that, in any case coming before him, the proceedings of the Police have been illegal, or evince negligence, or want of intelligence, he will report the matter for the information of the Magistrate of the District.

12. Every Prisoner must be forwarded from a Police Station direct to the nearest Magistrate having jurisdiction, and must not be sent to the next superior Officer of Police.

13. The several Deputy Inspectors-General, and District Superintendents of Police, are hereby vested with the powers of a Magistrate within all the Districts comprised in the Commissioner's Division within which they serve. The powers thus conferred upon the abovenamed Officers, and the powers of a Magistrate vested by Law in the Inspector-General, will be exercised, so far as may be necessary, in the absence of a Magistrate, only for the preservation of the peace, the prevention or detection of crime, or the apprehension or detention of offenders, and also for the trial of cases under Section XXIX., Act. No. V. of 1861. Provided that in all cases in which persons not belonging to the Police Force are concerned, and in cases in which a Police Officer is charged with offering any unwarrantable personal violence to any person in his custody, the trial shall not be held by an Officer of the Police Force. District Superintendents may also exercise the powers of a Magistrate under Act No. XX. of 1856.

Police Superannuation Fund

14. The Police Superannuation Fund shall be formed from the following items:—

1st.—A deduction of half an anna in the Rupee from the monthly pay of all Police Officers of a class not entitled to a pension under the Uncovenanted Service Pension Rules.

2nd.—Savings from the pay of Police Officers absent from sickness or on leave; such savings are, however, only available for the Fund after the deduction of all acting allowances.

3rd.—Fines imposed for neglect or misconduct of Police Officers under Sections VII. and XXIX. of Act V. of 1861; and fines imposed by Magistrates on drunken persons, or on persons convicted of assault on Police Officers.

4th.—Proceeds of sale of useless and worn-out equipments or articles of clothing provided for the use of the Police by the State.

5th.—Proceeds of unclaimed property sold under Section XXVII., Act V. of 1861.

15. No fines imposed on Police Officers by their superior Officers, in cases in which an appeal is allowed, shall be credited to the Superannuation Fund until the orders imposing them have been confirmed by the Inspector-General.

16. It will be the duty of all Magisterial Officers to keep up a separate Register of all fines imposed by them under the third head. The fines realized will be sent to the Collector of the District, who will credit the amount, under its proper heading, to the Police Superannuation Fund as hereinafter directed. At the close of each month the Magistrate of the District will send to the District Superintendent an Abstract from the Registers shewing all the fines thus imposed in his District. No fines can be credited to the Fund until the money has been actually realized; and when the order is appealable, until the appeal has been finally disposed of.

17. In like manner the Magistrate of each District, at the close of each month, will deposit with the Collector the nett amount realized by the sale of unclaimed property during the month after deducting the usual commission (not exceeding 5 per cent.), which should be allowed to the persons employed to conduct the sale.

18. The Magistrate shall transmit to the District Superintendent a monthly Return of all sums deposited with the Collector on account of the Fund.

19. No charges on the Superannuation Fund are to be made without the sanction of the Government previously obtained. Rules as to the period of service and other conditions entitling Members of the Force to Pensions or Gratuities from the Fund will be published separately.

20. Officers in charge of Treasuries will credit deposits with all sums deducted from Pay Abstracts by the Civil Pay-Master on account of the Police Superannuation Fund. These deductions should be noted on the Pay Abstracts by the submitting Officer, but checked by the Civil Pay-Master in the same way as those of other service Funds. Collectors will also credit to the same head all other monies of the nature described in Section XI. remitted to the Treasury by any Officer either of Police or of the Magistracy.

21. Any refunds of assets so credited must be charged to deposits, and if the actual deposit has been remitted to Calcutta, the charge must be made against the next deposit which is placed at credit of the Fund.

22. Collectors will, at the close of each month, remit the balance in their hands to the Secretary to the Bank of Bengal by transfer receipts, filling up the form thus—

“ To be transferred to credit of the Police Superannuation Fund at the Bank of Bengal as per particulars on the reverse—

Deductions.

Savings.

Fines on Police.

Fines by Magistrate.

Sale of clothing, &c.”

23. The Deputy Auditor and Accountant-General will prepare from the Bank's account a Statement in the annexed form (A.) shewing the state of the Fund at the close of each month, and send it to the Inspector-General of Police for information.

24. When there is an accumulation of Funds sufficient for investment in Treasury Notes, the Deputy Auditor and Inspector-General will make a joint application to the Auditor-General (accompanied by a Certificate in the prescribed form B.) for the issue of a Treasury Note in their favor for the amount of the Certificate in even hundreds of Rupees, bearing interest at the rate of 5 per cent. per annum from the date of the Certificate, which, for convenience of calculating interest, should always be the 1st of a month.

25. On the issue of the Treasury Notes by the Auditor-General of India the Deputy Auditor-General, Bengal, and Inspector-General of Police will lodge them with the Bank of Bengal, for safe custody, in their joint names. A Memorandum of the Treasury Notes should be appended to the Bank's account.

26. Interest on the Treasury Notes will be drawn by the Deputy Auditor and Inspector-General of Police every half-year, and the amount earned to the credit of the Fund in the Bank's accounts.

27. Upon the allotment of a pension the usual note or Certificate will be issued by Government, upon which the Collector will pay the amount, charging it to “ Advances Re-payable ” and forwarding the payee's receipt to the Inspector-General of Police, who will prepare a monthly Abstract of the pensions and transmit it, together with a Memorandum of the amounts disbursed by each Officer, to the Auditor-General, through the Deputy Auditor of Bengal, for concentration and adjustment of all the payments in the accounts of the Bank of Bengal.

28. Upon the receipt of the Pension Abstract the Secretary to the Bank of Bengal will remit the amounts to the several disbursing Officers by transfer receipts, and debit the charge in his account under the head of Police Superannuation Fund, supporting it with the Pension Abstract and the receipts.

29. The Collector will credit the amount of the transfer receipts to “ Advances Re-payable ” by debit *per contra* in his Cash Account in the usual manner.

30. As soon after the close of each year as possible an Abstract Account shewing the receipts and expenditure of the Fund, and the nature of the vested securities, will be published in the *Calcutta Gazette* for the information of the Police.

31. The General Police Fund will be composed of all sums received for Extra or Special Police under Sections XIII., XIV., and XV., all sums received on account of Municipal Police furnished by the Force, and all sums realized under Section XLI. of Act V. of 1861.

General Police Fund.

32. No special Guard shall be supplied to private persons without the authority of the Magistrate of the District, who shall at once report to the Commissioner the circumstance under which he sanctions any such Guard. Before such Guards are furnished the District Superintendent must require the deposit of a sum of money sufficient to defray their cost, provided that, if such Guards are required for any period in excess of one month, the deposit of one month's pay in advance will suffice.

33. All Cities, Towns or Unions in which Act XX. of 1856 is in force shall defray so much of the cost of the Police allotted to them as shall be determined on by the Inspector-General in communication with the Magistrate of the District, the balance being met from the Police assignment. The Magistrates of Districts must be careful to provide adequately for this demand upon their Municipal Funds. The Municipal Fund of a City, Town or Union will, under no circumstances, contribute more towards the General Police Fund than is actually paid for the Police employed within its limits, and the amount contributed shall not ordinarily exceed what would be sufficient for the Watch and Ward contemplated by Act XX., 1856. The surplus will, as hitherto, be employed for Conservancy and other Municipal purposes. If in any City, Town or Union a majority of the rate-payers object to the abolition of the old Watch and Ward, the new Police shall not be substituted for the Municipal Chowkeydars, except under the special orders of Government. Care must be taken that, when Municipal Police are employed out of the City, Town or Union for which they are appointed under Act XX. of 1856, they shall not be paid out of the rates levied under the said Act for that City, Town or Union.

34. All payments on account of Municipal Police must be made to the District Superintendent or Head Officer of Police in the District within fifteen days from the close of the month for which the pay is due.

35. A similar course in every respect must be followed in regard to payments from Bazar and Cantonment Funds for the Police employed in Military Bazaars or Cantonments.

36. When Police are supplied to any Public Department or Office for duties not coming within the scope of ordinary Police duties proper, the District Superintendent shall charge to such Department the actual pay of the grades furnished, with an additional charge of 10 per cent. on the amount of the Bill towards the expense of European supervision, cost of Arms and Accoutrements, Clothing, &c. The same rule will be observed in regard to the pay of special Guards supplied to private persons.

37. Bills for the cost of Police supplied to any Public Department or Office will be presented to the Head of the Office employing them at the end of every month, and such Bills shall be paid in cash on or before the 10th of the ensuing month.

38. The whole number of Police employed and paid, and their cost, will be shewn in the monthly Police Abstracts, and the sums to be received from the different Departments will be deducted from the Abstract, the balance only being drawn from the Treasury.

39. Cash payments are essential as a check upon Departments employing Police, no Bill for Police supplied, though passed by the Head of an Office, will therefore be accepted as a voucher for a charge. The Police Abstract, though exhibiting the whole number of the Police employed on every description of duty during the month, will only be passed for the fixed amount allotted by Government, cash receipts being shewn for all additional Police supplied to other Departments.

40. The strength of permanent Jail Guards will be determined by the Inspector-General of Police in communication with the Inspector-General of Jails and Officers in charge of Jails.

41. The Guard will be hereafter furnished from the Police Force by the District Superintendent, to whom payment of the cost thereof will be made by the Magistrate or other Officer in charge of the Jail on or before the 10th of each month for the month preceeding.

42. Officers in charge of Jails having been specially authorized to draw advances from the Treasury to meet this and other Jail charges, subject to adjustment by audited bills, will have no excuse for deferred payment, and the District Superintendent will report to the Deputy Inspector-General all instances in which delay may occur.

43. The District Superintendent, before distributing pay to the Police forming the Jail Guard, will make the deductions on account of contribution to the Police Superannuation Fund, and will credit the same in his accounts of that Fund.

44. The District Superintendent will include the pay of the Jail Guard in the Pay Abstract of the Police Force belonging to his District, the object being to keep in view the entire strength of the Police Force attached to each District; but, before submitting the Abstract for audit, he will deduct from the total amount thereof the sum received from the Officer in charge of the Jail on account of the permanent Guard.

45. Whenever extra or special Guards are required on occasions of emergency, such as the escort of Prisoners under transportation, the Officer in charge of the Jail will indent for such special Police party, in the form prescribed by the Inspector-General of Police, paying in cash the cost of the Police thus furnished.

46. No Departmental payment will be made by the Revenue Department for permanent Treasury Guards; the Treasury Guards will be furnished by the Police Reserve, each Treasury being debited in account with the cost of its own Guards.

47. Wherever the new Constabulary is sufficiently organized the duty of serving processes will be made over to them, all fees levied on this account, and all rewards and forfeitures of the nature described in Section XLI. of Act V. of 1861, will be transmitted weekly by the Magistrate to the Collector, who will place all sums received on this account to the credit of the General Police Fund. A weekly account of all such deposits will be furnished by the District Magistrate to the District Superintendent.

48. The duty of escorting offenders under trial from the Jail to the Magistrate's Court, and of guarding them whilst there, will henceforth devolve upon the Police. Whenever the trial of a person, who is detained pending the result of such trial, shall for any reason be adjourned, a day shall be fixed by the Magistrate for the re-hearing of the case, and it will be the duty of the District Superintendent to ensure the punctual attendance of the Prisoner on the day fixed. By these means the inconvenience and unnecessary labor imposed upon the Police of conveying day by day to the Magistrate's Court a number of Prisoners whose attendance is not required will be avoided.

49. With the exception of the Thaunah Police, River Police, and Treasury Guards no part of the Force can be charged against the Police assignment. Funds for the payment of all other Guards, Special Escorts, Local Police, &c., must be altogether provided by the Departments to which they are furnished.

50. The District Superintendent will keep an account of all payments which he may receive on account of the General Police Fund under the separate heads, Cantonment Police, Municipal Police, Permanent Jail Guards, Temporary Guards, Escorts, Special Police, &c.

51. The Pay Abstract as noted above will include the pay of the whole permanent Force whether chargeable to Special Departments, or to the

Police assignment. The Collector will give an advance of the pay of the permanent Force, which will be adjusted, as regards the former, from the deposits made by the District Superintendent, and as regards the latter by the audited Pay Bill.

52. Temporary Special Police will not be included in the Pay Abstract but will be paid at once in cash by the Superintendent, the accounts being audited by the Inspector-General. The surplus after payment of salaries will be deposited with the Collector to the credit of the General Police Fund.

53. The General Police Fund is absolutely the property of Government and is applicable solely to the maintenance of the Police Force and to no other purpose.

54. The Inspector-General will, in communication with the Deputy Auditor and Accountant-General to the Government of Bengal, draw up a simple form of account to be kept by the District Superintendent, shewing all sums received and expended on account of Police, and all deposits made by other Departments in the Collector's Treasury on account of Police. Monthly accounts must be furnished by each District Superintendent to the Deputy Inspector-General, and quarterly accounts must be furnished by the Deputy Inspector-General to the Inspector-General, who again will furnish half-yearly accounts to Government.

55. No deposits shall, on any account, remain in the hands of District Superintendents beyond the day, or the day following that, on which they are paid. These Officers will deposit all such sums with the Collector.

56. The general duties of the Police are detailed in Sections XXIII., XXV., XXN., and XXXI. of Act V. of 1861. Detailed instructions as to the manner in which those duties are to be performed will be issued by the Inspector-General.

57. The Inspector-General must take care that men are not unnecessarily withdrawn from their proper duties of Police to act as Writers, &c. He will accordingly fix the Establishment of each Deputy Inspector, District Superintendent, and Assistant in charge of a District at once. No other Officers require Office Establishment. Great care should be taken that unpaid apprentices are not allowed by the subordinate Officers of the Police to hang about the Stations and Out-stations.

58. The distribution of the Force of a District should, as far as possible, be so arranged that not more than twenty to twenty-five written Reports should have to be disposed of by a District Superintendent during the day. No District Superintendent ought to spend more than two hours a day at his desk in examining Reports and passing orders upon them, but this duty he must regularly perform wherever he may be, whether in a Station or in Camp.

59. Every Officer of the Police, above the Grade of Police Inspector, and below that of Deputy Inspector-General, is expected, within one year from date of appointment, to pass an examination in Act V. of 1861, and in Chapters IV., V., VI., VII., VIII., and IX., Act XXI. of 1861, which define the mode of procedure in matters cognizable by the Police.

60. Every such Officer as above is also expected, if not previously so qualified, to pass within twelve months from the date of his appointment by the First Standard in the Oordoo or Bengalee language, and six months afterwards by the First Standard in the second language. He is required, within two years from the date of his appointment, to pass by the Second Standard in both the Bengalee and Oordoo languages.

61. In the event of any Officer failing to pass the last mentioned test within the prescribed period an additional six months will be allowed him, as a special case, if he is reported by his official superior to be efficient in other respects, but otherwise his services will be dispensed with.

62. The Inspector-General will prescribe the Books and Registers which will have to be kept by District Officers and at each Police Station. The following will suffice at first for Police Stations :—

- I. Register of charges taken.
- II. Ditto ditto refused.
- III. Ditto of property stolen and recovered.
- IV. Unclaimed property found.
- V. Absconded criminals and escaped offenders living or having connection within Station Circle.
- VI. Register of Convicts released on expiry of sentence and notorious bad characters.
- VII. Register of unnatural deaths reported.
- VIII. Ditto of Villages forming Constables' beats in the Circle, with the names of the Constables.
- IX. Village Chowkeydars within the Circle.
- X. Station Diary Book.
- XI. Inspection Report Book.
- XII. Station Order Book.
- XIII. Conduct Book.

63. Too great importance cannot be attached to the Diaries. Copies of Diaries will be regularly submitted from each Station to the District Superintendent, and from each Superintendent to the Inspector-General; these Journals must never be allowed to be a day in arrear; they should be a concise, but at the same time a complete record of all that has been brought during the day under the notice of the compiling Officer. The Station Diary will comprise an abstract of all Out-station Diaries, and the District Diary will contain an abstract of all worthy of note in all the Station Diaries and Reports received during the day. Special Reports should be avoided as much as possible.

64. The Inspector-General will lose no time in drawing up a set of periodical Returns and Statements to be submitted to him by his Subordinates.

65. Commissioners of Divisions will continue to submit to Government, as heretofore, the Annual Police Reports of their Divisions.

66. The Inspector-General will submit to Government an Annual Report shewing the administration of his Department in all those Districts in which Act V. of 1861 is, or may be, in force. The materials for this Report will be obtained from the Reports of his Subordinates.

67. The Inspector-General must exercise great discretion in the issue of Circular Orders. No Circular should be issued unless it has been ascertained that directions upon some particular point are actually required. Circulars founded upon isolated cases, or to meet contingencies which may never arise, should be avoided. The Inspector-General will submit to Government two copies of each Circular issued by him to his Subordinates.

ORDERED, that a copy of this Resolution be forwarded to the Inspector-General for information and guidance and for communication to his Subordinates, to all Commissioners of Divisions, to all Magistrates of Districts, to the Civil Pay-Master, and to the Deputy Auditor and Accountant-General of Bengal.

Ordered also, that a copy be sent to the Secretary to the Government of India, Home Department, for information.

Ordered also, that the Resolution be published in the *Gazette*.

Notification

In cancellation of Notification of this Department, under date the 9th March 1861, relative to the Stamps required on Powers of Attorney either for the realization of interest on, or for the sale of Government Promissory Notes, notice is hereby given that Powers of Attorney executed after the passing of Act X. of 1862 must be on Stamped Paper of the value prescribed in Article 13, Schedule A. of Act X. of 1862.

Schedule 1, 13 - "Letter or Power of Attorney not being of the kinds provided for in Schedule B."

"If the Letter or Power of Attorney be for the performance of one act only and the value of the property to be dealt with be expressed in the Letter or Power and do not exceed Rupees 500 1

(Copy of the Standing Counsel's Opinion on the point, dated 10th September 1862, is subjoined. —

OPINION.

I entirely agree in the conclusions in the within letter of July 29th. It is very clear that Schedule B, Clause 8, does not in any manner relate to these Powers of Attorney, but only to such as are required in the conduct of cases before Courts of Justice or Revenue Authorities, therefore the Stamp to be required in all cases for Powers to draw interest executed after Act X. of 1862 should be of (4) four Rupees except in the excepted instance at the end of Clause 43 of Schedule A, in which it ought to be a Stamp of one Rupee.

Notice to Claimants to Share in the Delhi and Lucknow Prize Properties.

PARTIES having claims on account of themselves, of those who served under them, of the Estates of deceased Officers and Soldiers, or of their Constituents to share in either of the above Prizes are requested to submit them, without further delay, accompanied by the necessary proofs, to the Prize Department of the Examiner's Office, No 7, Middleton Row, Calcutta.

2 From the absence of the usual Rolls (the Returns during the period of the Mutiny reached very irregularly, and are, in very many cases, altogether wanting) it has been found impossible to compile a List of the parties entitled to share in the Delhi and Lucknow Prizes, and the Adjutant-General's Department has been unable to furnish a List of those entitled to additional shares by reason of their having held staff appointments and commands.

3 The number of persons entitled to share can therefore only be ascertained through the claims, supported by proofs, which are submitted. It is known that many claims have not been sent in (in the case of Corps and Detachments a report has been made to Government), and until the parties or their representatives submit them a final distribution of either the Delhi and Lucknow Prize cannot be made.

4 Each claim sent in must be supported by a Certificate shewing the dates between which the party was present at the operation for which the claim is made.

5 When additional shares beyond those of the Regimental rank of the party are claimed, a Certificate from a Staff or Commanding Officer must be attached, shewing the nature of the service and the date on which the claimant took charge and relinquished the duty.

6 When claims are submitted by representatives, a Power of Attorney must be sent, and in the case of Estates, when the President of the Committee of Adjustment or the Administrator-General does not claim, proof of the party being entitled to administer must be shewn.

7. It has been decided by the Law Authorities that there is no limit to the period during which claims can be submitted. It is therefore necessary to ascertain the number of probable claimants before a final settlement or even a second distribution can be made.

8. The distribution of the Pegu Prize is delayed by the absence of any Rolls of claimants of the Royal Navy. These have long since been applied for.

FINANCIAL DEPARTMENT

No. 16G.

Fort William, the 27th September 1862.

Extract from a Resolution of the Government of India, in the Financial Department, under date the 27th September 1862.

His Excellency the Governor General in Council observes, that if a Military Officer in Civil

employ were now to be required to act for an Officer of the Education Department, and perform his own duties in addition, his allowances would be regulated by the Orders passed in this Department on the 25th June 1861, provided the Absentee for whom he officiates be a Military Officer also. But should the Absentee be a Civil Servant, Covenanted or Uncovenanted, the acting Military Officer would draw his allowances under the Covenanted Civil Absentee Rules, which do not admit of the grant in such cases of any extra remuneration beyond what would be allowed to an Officer who, officiating for an Absentee, is relieved of his substantive duties.

SUMMARIES OF CONSTRUCTION OF INCOME TAX ACT,
Nos. XXXII. AND XXXIX. OF 1860.

Military Pensioners employed as Overseers in the Stud Department are liable to Income Tax, provided their total income is not less than 500 Rupees per annum. The Pensions enjoyed by the Overseers should, for the purposes of the Income Tax, be treated as if they had merged in the salary of their appointment, and be subjected to the Tax accordingly. (Financial Department Order, No. 2769, dated 26th August 1862.)
Published by Order of His Excellency the Governor-General in Council,
E. DRUMMOND,
Secy. to the Govt. of India.

MILITARY DEPARTMENT.

Fort William, the 29th September 1862.

No. 905 of 1862.—With reference to General Order by the Governor General, No. 494 of 31st May 1861, paragraph 12, revising the pay of the Native Cavalry of the Bengal Army, the following rules are published for the guidance of Commanding Officers and the Pay and Audit Departments:—

1. The pay of the Native Commissioned Officers is regulated by merit, so that the most deserving may enjoy the superior rates, whilst in matters of duty the rank and position of all remain unaffected.

The power of removing from the higher to the lower rates Officers who, through inattention and carelessness, cease to deserve the increased meritorious service pay, and also of advancing Officers to the higher rates on all occasions of vacancies, is vested in Commanding Officers; but whenever a Native Officer shall be disrated, the dates of disrating and of admission to superior pay are invariably to be recorded in the Muster Rolls.

2. A full record of the reasons for appointing or disrating will be entered in the Regimental Order Books, and such other Regimental record as His Excellency the Commander-in-Chief may direct.

3. The pay of existing Naib Ressaldars is fixed at (80) eighty Rupees per mensem, with effect from 1st June 1861.

4. The pay of a Woordie Major is fixed at (150) one hundred and fifty Rupees per mensem, with effect from 1st June 1861, inclusive.

This Officer is equally eligible with the Ressaldars for promotion to the grade of Ressaidar, relinquishing his appointment as Woordie Major on such promotion. He is also liable, at the discretion of the Commanding Officer, to be disrated to either of the lower scales of pay for the rank of Ressaidar, with or without forfeiture of the appointment of Woordie Major. In no case is the aggregate fixed allowance for the three Ressaldars and the Woordie Major to be exceeded.

5. The ordinary or net pay of the several grades of the Bengal Native Cavalry will be as follows, with effect from 1st June 1861, inclusive:—

	Rs.	As.	P.
Ressaldar	90	0	0
Ressaidar	60	0	0
Woordee Major	30	0	0
Jemadar	15	0	0
Kote Duffadar	13	2	0
Duffadar	13	2	0
Nishan Burdar	9	6	0
Nagarchee			
Trumpeter			
Sowar	9	6	0

6. The order marginally cited is cancelled, and the following distribution of the pay of Sowars is substituted:—

G. G. O. No. 50, dated 16th Decr. 1859.

	Rs.	As.	P.
Net Pay	9	6	0
Contribution to Horse and other Regimental Funds	2	10	0
Horse Allowance	15	0	0
Total	27	0	0

7. Horse Allowance is fixed for all ranks at (15) fifteen Rupees per mensem, which is included in the consolidated pay of the several ranks, whatever number of Horses may be maintained. Native Doctors when actually serving with Cavalry Regiments are entitled to the same allowance in addition to their pay and other allowances.

8. Dates of casualties of Horses and of substitution of Remounts are invariably to be recorded in the Muster Returns in an explicit manner. The rule which directs discharge from the service of all men failing to remount themselves within three months is cancelled; but whenever it may be impracticable for them to remount themselves within that period, a certificate as follows must be attached to the Pay Bill:—

"I certify that every endeavour has been made to provide a suitable Remount for (Number,

"Name, Rank, Troop), but without effect, on "account of (here state the cause)"

9. Forge Allowance is sanctioned to all Regiments, at the rate of (60) sixty Rupees per mensem

10. Men undergoing imprisonment by sentence of Court Martial, or summary trial, will continue to receive subsistence allowance at the rate of (2) two annas per diem from the Pay Department, but Horse Allowance will be passed in full.

11. All Furlough and other men on leave shall be subject to the same amount of monthly stoppages on account of Regimental Funds and Establishments as those present with the Regiment, and in the case of a man on Furlough leaving his Horse at Head Quarters, the Horse Allowance shall be added to the other stoppages.

12. In the event of a Horse dying while absent with the owner on Furlough, or at Regimental Head Quarters during his owner's absence, only dismounted pay will be passed during the time the Soldier may continue dismounted

No. 906 of 1862.—Articles 9 and 10 of Section XXV, Pay Code of 1849, are cancelled, and the following Rules substituted—

Article 9.—The "Order of Merit" consists of three classes; for the third class, an increase of one-third, for the second, of two-thirds, and for the first class, of the full amount of net pay is sanctioned, over and above the pay of rank while serving, and in addition to Pension when invalided

Article 10.—In the third class the increased pay will, as a general rule, be from the first, and always continue to be, irrespective of promotion, one-third of the net pay of the rank in which the act of valour was performed

If, however, promotion shall be specially conferred upon a Soldier as a reward for such act of valour, either previous to his actual admission to the Order of Merit, or subsequently, as an additional reward, and with effect from the date of the act of valour, then the increased pay in his case is to be one-third of the net pay of the rank to which he may be promoted.

On promotion to a higher class of the Order, the additional allowance held in the lower grade will be surrendered

No. 907 of 1862.—In continuation of Government General Order No. 810 of the 21st August 1862, it is hereby notified that the additional shares of Prize Money to be allotted to Officers, who held the following appointments in virtue of their Staff appointments, will be as follows—

Notification.

In cancellation of Notification of this Department, under date the 9th March 1861, relative to the Stamps required on Powers of Attorney either for the realization of interest on, or for the sale of Government Promissory Notes, notice is hereby given that Powers of Attorney executed after the passing of Act X. of 1862 must be on Stamped Paper of the value prescribed in Article 43, Schedule A. of Act X. of 1862.

Schedule A., 43.—“ Letter or Power of Attorney not being of the kinds provided for in Schedule B.” ... Rs. 4

“ If the Letter or Power of Attorney be
“ for the performance of one act only, and
“ the value of the property to be dealt with
“ be expressed in the Letter or Power and
“ do not exceed Rupees 500 ... „ 1

Copy of the Standing Counsel's Opinion on the point, dated 10th September 1862, is subjoined:—

OPINION.

I entirely agree in the conclusions in the within letter of July 29th. It is very clear that Schedule B, Clause 8, does not in any manner relate to these Powers of Attorney, but only to such as are required in the conduct of cases before Courts of Justice or Revenue Authorities; therefore the

Stamp to be required in all cases for Powers to draw interest executed after Act X. of 1862 should be of (4) four Rupees except in the excepted instance at the end of Clause 43 of Schedule A, in which it ought to be a Stamp of one Rupee.

Notice to Claimants to Share in the Delhi and Lucknow Prize Properties.

PARTIES having claims on account of themselves, of those who served under them, of the Estates of deceased Officers and Soldiers, or of their Constituents to share in either of the above Prizes are requested to submit them, without further delay, accompanied by the necessary proofs, to the Prize Department of the Examiner's Office, No. 7, Middleton Row, Calcutta.

2. From the absence of the usual Rolls (the Returns during the period of the Mutiny reached very irregularly, and are, in very many cases, altogether wanting) it has been found impossible to compile a List of the parties entitled to share in the Delhi and Lucknow Prizes, and the Adjutant-General's Department has been unable to furnish a List of those entitled to additional shares by reason of their having held staff appointments and commands.

3. The number of persons entitled to share can therefore only be ascertained through the claims, supported by proofs, which are submitted. It is known that many claims have not been sent in (in the case of Corps and Detachments a report has been made to Government), and until the parties or their representatives submit them a final distribution of either the Delhi and Lucknow Prize cannot be made.

4. Each claim sent in must be supported by a Certificate shewing the dates between which the party was present at the operation for which the claim is made.

5. When additional shares beyond those of the Regimental rank of the party are claimed, a Certificate from a Staff or Commanding Officer must be attached, shewing the nature of the service and the date on which the claimant took charge and relinquished the duty.

6. When claims are submitted by representatives, a Power of Attorney must be sent, and in the case of Estates, when the President of the Committee of Adjustment or the Administrator-General does not claim, proof of the party being entitled to administer must be shewn.

7. It has been decided by the Law Authorities that there is no limit to the period during which claims can be submitted. It is therefore necessary to ascertain the number of probable claimants before a final settlement or even a second distribution can be made.

8. The distribution of the Pegn Prize is delayed by the absence of any Rolls of claimants of the Royal Navy. These have long since been applied for.

The Earthwork of the Barrackpore and Kanchraparah Road has been half completed during the last three months, and a large proportion of the metal required for it is stacked or in clumps along the road side. The masonry is also progressing. The Comulgatchee and Sonarpore Road has been completed, with the exception of rolling and consolidating the metal, and will shortly be opened for traffic. The Rajpore and Sonarpore Road will be completed within one month from the date of the land being acquired. The Barrackpore and Chappahattee Road is now as far advanced as possible before the cessation of the rains, as the country is completely inundated. Half the earthwork is thrown up and a large proportion of the ballast has been burnt, coal has also been supplied to the amount required. On the whole the progress of works in this District is considered very satisfactory. Arrangements have been made to prevent in future any delay in making over the land required for any Railway Feeder.

No. 924 of 1862.—His Excellency the Governor-General of India in Council is pleased to direct, that, in future, the following Regulations shall be observed with regard to the daily allowance of Firewood for Hospitals.

2. In all ordinary circumstances, where the number of Patients is twelve, or more, the allowance of Firewood shall be restricted to two seers per man per diem.

3. In cases where the number of Patients is less than twelve, or where (in the Hills or in other places) the Firewood supplied is not tolerably dry and good, two and a half seers per man per diem may be allowed, or even three seers if necessary, but the cause which renders the increase necessary must be certified by the Medical Officer at the time, and the reason why better fuel cannot be or is not supplied is to be stated, in order that the increased expenditure may be passed by the Examiner of Medical Accounts or the Controller, as the case may require.

4. In the case of outbreaks of epidemic disease or other extraordinary circumstances, no fixed limits can be either assigned or observed, but in such cases Medical Officers will certify as to the necessity of the extra expenditure which may be incurred, stating distinctly all the circumstances of the necessity of such increase.

5. His Excellency in Council desires it to be noted, that the reported experience of Medical Officers has proved that the expenditure of Firewood in Hospitals may, by proper care, be generally, and often considerably, reduced below the limits above laid down, and it will be the duty of all Medical Officers to pay close attention to the

economical use of the Firewood which is issued for the use of Patients under their care.

Whereas it appears to the Hon'ble the Lieutenant-Governor that land is required to be taken up by Government at the public expense for a public purpose, viz., for the Shamlee Tehseel Buildings in the District of Meerut, it is hereby declared that a piece of land at Shamlee, measuring about 4 acres, is required for the above purpose.

This Declaration is made under Section II., Act VI. of 1857.

No. 1042A.

With reference to paragraphs 8 to 37 of the Resolution of His Excellency the Viceroy and Governor General in Council, No. 3264, dated 17th October 1861, relative to the sale of waste lands in Fee-simple, as modified by the Despatch of the Right Hon'ble the Secretary of State, No. 14, (Revenue), dated 9th July 1862, the Hon'ble the Lieutenant-Governor is pleased to publish, for the information of all concerned, the following revised Rules of Procedure which have been prepared by the Sudder Board of Revenue, North-Western Provinces, and have received the approval of this Government:—

Rules of Procedure.

The attention of all Officers in charge of Districts containing unassigned waste lands is directed to the first portion of the Revenue Resolution of the Viceroy in Council, No. 3264, dated the 17th October, to the provisions of which, as modified by the further Orders of the Supreme Government, dated 15th August 1862, No. 4206, they are required to give full and immediate effect.

2. The Collector should at once proceed to prepare a Statement of all special tracts reserved from the operation of this Circular, under paragraphs 23 and 24 of the first named orders, as being required for Forest purposes, for grazing, or firewood preserves, for building sites, or for any other public object. This Statement should be exposed in his Office, and facilities should be given to intending applicants to make themselves aware of its contents.

3. When an application for the assignment of a specific tract of waste land is received, the Collector will first consider whether any objection, or special limitation, is required by reason of the land being required for any of the above named purposes, and in the event of such being the case, and the applicant still prosecuting his demand, the Collector will report the matter for the information of the Commissioner.

4. In other cases he will at once proceed to enquire whether the land applied for is encumbered by any prior claim of property or occupancy.

5. Where it is evident that there exist rights of property, or of exclusive occupancy, either active or latent, the applicant will be informed that the case cannot be taken up under the Grant Rules, excepting in favor of the party originally possessed.

of these rights, or who has purchased them from such party. "It will be an important part of the Collector's duty to make certain that any transfer of such rights shall have been made with a complete and fair understanding on the part of all concerned."

6. In case of there being any doubt as to whether existing rights are of the exclusive character necessary to bar alienation, the Collector will report the case through the Commissioner to the Sudder Board of Revenue. If the rights claimed, though not exclusive, should appear to the Sudder Board of Revenue to be such rights of pasturage, wood cutting, turf cutting, &c., as commonly obtain in the Hill Districts, and are entitled, as "existing rights XX in a rude form," to protection under paragraph 6 of the Resolution of the Governor General in Council, No. 3264, dated the 17th of October 1861, the Board will instruct the Collector to endeavor to bring the applicant for the Grant, and the parties who possess a right to use the spontaneous products of the soil within the tract applied for, to a mutual agreement as to the terms upon which (if any) an hereditary and transferable property in the soil may be given to the former, subject to the exercise of their customary rights by the latter. If an amicable arrangement be come to the Collector will report the particulars for the information and sanction of the Sudder Board of Revenue. Otherwise the Collector will proceed to estimate the value of the prescriptive rights, as above, on a liberal basis, and will submit the case, through the Sudder Board of Revenue, to the Government in view to the payment of full compensation.

7. Where no claims of the nature supposed are known to exist, the Collector will calculate the cost of surveying the Grant, and of erecting durable pillars of demarcation. This will be at the lowest rate for which land of the nature applied for is ordinarily surveyed in the District. But provision must be made for the measurement being accurately conducted on the plane table system, and in such wise that a correct estimate may be formed of the amount of land "uncleared," and of the amount "unencumbered with jungle," as also of the portion which may fairly be held to be unculturable. A scale of charges of Survey should be prepared and hung up in the same way as the Statement referred to in paragraph 2. The Collector will submit a copy of this scale to the Commissioner for the approval of the Board.

8. No allotment as above will be made exceeding 5,000 acres; and in the Hill Districts no grant of Tea lands shall exceed 2,000 acres. Where any special reason may exist against the assignment of so large an area, such a proximity to a Station, &c., and the Grantee may not be content with a smaller area, the Collector will report the case for orders, with his opinion as to the degree of farther limitation, which is called for.

9. When the cost of Survey has been paid in the Survey will be proceeded with forthwith, and no time should be lost in the erection of the boundary pillars.

10. Where an Estate has been already surveyed and marked off this portion of the operation will, of course, be disposed with, and no charge will be made against the applicant further than is necessary to secure an accurate plan of the new land, with the requisite boundary marks.

On the completion of the demarcation and Survey, or, in the case of surveyed land, imme-

diately on the boundaries of the proposed Grant being marked by substantial pillars, the Collector will issue an advertisement, describing the land to be sold, stating the upset price, and specifying the place and date of sale. The period of the advertisement will be for not less than thirty days. The upset price will be fixed at Rupees 5 for cultivated and Rupees 2-8 for uncultivated land, unless for some special reason (such as proximity to a Station, valuable timber being on the land, &c.) that rate be held to be inadequate; in the latter case the Collector will report what upset price he thinks proper, and on its being confirmed by the Board, he will prepare his advertisement accordingly.

12. The advertisement will be published in the *Official Gazette* and in two up-country newspapers, and the Collector will also cause an *Istehar* to be stuck up in his Office, and in the Police and Revenue posts nearest to the property, as well as in any villages on the land, or adjoining thereto. He will also, where he deems it advisable, have the purport of the application verbally explained to the inhabitants of those Villages, and to any other parties likely to be interested in the Grant.

13. Any objections to the Grant will be carefully considered and disposed of on their merits. If they are held to be valid the sale will be stayed, and the circumstances reported through the Commissioner to the Board.

14. At the sale, which will be conducted on the usual footing of an auction sale, the land will be assigned to the person offering the highest price; or, in the event of no competitors, to the applicant at the upset price, the cost of Survey (if made) being added in both cases. In case the applicant is not the purchaser, all monies paid by him on account of Survey will be forthwith refunded to him.

15. Immediately on conclusion of the sale the purchaser will pay down one-tenth of the sale price. On this payment being made the Collector will at once deliver the Deed of Grant (Form A), with plan of the Estate, to the Grantee, and will enter his name in the District Records as proprietor of the Grant. Possession will at the same time be given.

16. Wherever it may seem necessary to make any reservation of the rights of Government, under paragraphs 12 and 13 of the Resolution, the Collector will report the circumstances for the orders of the Commissioner.

17. Grants, which have already been given for a term of years at progressively increasing rents, will be treated as if the land were permanently settled, if the holder wishes to redeem the future land revenue, at the highest rate fixed for any year during the currency of the Grant, provided there is no right of occupancy other than that of the Lessee, or that derived from him. The rates for redemption will be calculated according to the market rate of four per cent. Government Securities at the time being, as directed in paragraph 75 of the Despatch of Her Majesty's Secretary of State.

18. As laid down in paragraph 11 of the same Despatch, the title acquired, by sale, under the Rules now promulgated is to be held subject to the provisions of any legislative enactment which may hereafter be passed for disposing of the claims of third persons subsequently preferred.

19. From the date of the Deed of Sale, three months will be calculated, and interest on the

of purchase money is found to be then unpaid, will be entered as an arrear against the Grantee, who is to be charged with ten per cent. per annum on such arrear. This charge should be treated in the same manner as a demand of Land Revenue,

* "The land will be held liable to re-sale in default of the regular payment of such interest should there be no crop or other moveable property on the land from which the claim of Government can be satisfied." liable on default to the same measures for recovery of arrears.* The amount should be demanded twice a year with the May and November instalments, and should be entered at the foot of the Pergunnah Towzee in the same manner as Land Revenue, though the amount "being subject to diminution on each further payment" will not be added to the Rent Roll of the District.

20. Each Grant will be reported through the usual channel for the information of Government immediately on the Deed being delivered to the Grantee.

21. Every six months a Report will be submitted of any sums that may have been realized within the period as purchase money. This must be carefully drawn up, in order that the provisions of paragraph 56 of the Resolution may be carried into effect. A copy of the six Monthly Report will be simultaneously sent to the Deputy Auditor and Accountant-General.

22. In the Annual Administration Report the amount so realized within the year, and the total amount from the commencement of the system up to date will be noted, and also the sum realized as interest on unpaid balances of purchase money.

23. A separate Register of all Grants made under these Rules will be carefully maintained in the following Form in the Collector's Office both in English and in the Vernacular. No transfer of proprietary right will be recognized by the Revenue Officers of Government unless duly registered, after having been acknowledged by the transferee in person or by duly authorized Agent before the District Officer or one of his Assistants:—

Number.	Number of Grant.	Name of Grantee.	Purchase Money.	Payment of instalment with date of each.	Date of Deed of Grant.	Subsequent registered transfers or accessions

The Maps or Plans of all Grants sold under these Rules will be kept in a series corresponding with the numbers in this Register.

24. All previous Circular Orders on the subject of Grants of waste land are hereby cancelled. Future applications will be disposed of under the present orders.

A.

purchase money has not been paid up, interest at ten per cent. per annum will be charged on the balance, and thereafter, until the entire purchase money be paid up, such interest will be chargeable on all unpaid arrears of the purchase money, and all payments by the Grantee shall be first carried to the credit of any outstanding arrear of interest due on such purchase money.

II. Arrears of interest shall be treated in the same manner as arrears of Land Revenue, and shall be subject to the same measures of realization.

III. No transfer of proprietary right will be recognized by the Revenue Officers of Government unless duly registered; and no transfer of interest or creation of new interest in the Grant beyond a lease of three years, without an acknowledgment by the transferee in person, or by authorized Agent, before the District Officer, or one of his Assistants.

IV. The right of way heretofore enjoyed by the public in roads now existing in the Grant is not to be interfered with. The Grantee is to pay a contribution of one Rupee per annum for every thousand Rupees of purchase money in lieu of all demand of the State for aid in repairing the high roads, he will have no claim on the Government for making or repairing private roads.

V. The Grantee is to erect permanent boundary marks round his Grant, and to keep them in a state of repair.

VI. The Grant conveys the plenary right to all products both above the surface and below the same. [Here any exceptions which may have been approved by Superior Authority to be noted].

VII. For the preservation of the public peace the Grantee shall, at the requisition of the Magistrate, maintain a Chowkeedar for every sixty houses or families resident in the Grant. The Chowkeedar shall receive Rupees 3 per mensem. For every three Chowkeedars there shall also be maintained by the Grantee a Goryt or Reporter at a salary of Rupees 2 per mensem.

VIII. Arrears on account of Road Fund or Chowkeedar's salary may be realized by distraint of the crops or other property of the Grantee.

IX. The prescriptive rights of other proprietors in streams running through, or bounding the estate will be maintained for purposes of irrigation or navigation, and for the transport of timber or other property, and for other purposes of general utility. The Government reserves to itself the right which it everywhere possesses over all such streams, whether for purposes of irrigation or navigation, and whenever it sees fit, to exercise the control of the waters and distribute them in such manner and on such conditions as may seem most conducive to the public good.

X. The lands included in this Grant are shown in the subjoined Table.—

XI. On the payment of the purchase money in full with all arrears of interest the Grant will belong to the Grantee free for ever from all demand for Land Revenue.

XII. The title conferred by this Grant will not exempt the Proprietor from any taxes, cesses, or liabilities [other than liability for the Land Revenue] which may hereafter be imposed by Law.

No. 1043A.

Under paragraph 26 of the Despatch of Her Majesty's Secretary of State, dated the 9th of July last, a discretion is granted to the Local Government to allow redemption of the Land Revenue in respect of "lands required for dwelling-houses, factories, gardens, plantations and other similar purposes." This permission extends "to portions of land comprised within Zemindaries, the jumma of which is not redeemed, a proportionate reduction being, of course, made in the jumma payable to the Government."

2nd.—Under this authority the Government will be prepared to receive applications from the proprietors of lands of the nature above indicated, for the commutation, by a single payment, for ever of the Land Revenue assessed thereon.

3rd.—The price to be paid will, under paragraph 75 of the same Despatch, be fixed according to the actual value at the time being of Government Four Per Cent. Securities.

4th.—Under paragraphs 35 and 75 of the Despatch redemption will only be allowed where the revenue is found to be fairly assessed, otherwise "a fall, fair, and equable rent" will be imposed as a necessary preliminary to the measure.

The following letter, addressed to the Civil Pay Master of the North Western Provinces, is published for the information and guidance of all Officers submitting applications for Pensions in behalf of their Subordinates —

No 1770A

FROM SIR GEORGE COLPHER, *Barl AND C B,*
Secy to Govt, N. W. Provinces,

TO L. C. PROBYN ESQ.,
Offy Civil Pay Master, N. W. Provinces,
Allahabad.

Dated Nynee Tal, the 17th September 1862.

SIR,—I am directed by the Hon'ble the Lieutenant-Governor to request that whenever you are unable to test any portion of the service of an applicant for Pension, you will return the Pension Roll to the sending Officer with an intimation to that effect and with a request that before forwarding the application to Government, he (the said Officer) will cause the untested service of the applicant to be established by his affidavit, or by authentic documents and will further call upon the applicant to certify that he has held a substantive office during such period of untested service, and has not merely acted as "an occasional substitute for another."

No. 1789A

Nynee Tal, the 20th September 1862

The following Resolution of the Government of India, in the Financial Department, is republished for general information —

No. 5250

Extract from the Proceedings of the Government of India, in the Financial Department, dated 29th March 1862.

From BABOO SURENATH GHOSH, Assistant, East Indian Railway, Rajmehal, to C. H. LUSHINGTON, Esq., Secretary to the Government of India, Financial Department, Calcutta, dated 15th February 1862

I most respectfully beg the favor of your submitting this my application for a gratuity for the kind consideration of His Excellency the Governor-General of India.

After a faithful service of upwards of ten years in the Government Savings Bank, as the enclosed copy of a Certificate from J. I. Harvey, Esquire, the Secretary of the Bank, will testify, I was thrown out of employ in consequence of the abolition of the Military Branch of the Bank. I had to remain unemployed for some months before joining the present temporary post at the Office of the Resident Engineer to the East Indian Rail-

way Company at Rajmehal. A Certificate in original from whom as to the date of my employment I beg also to enclose. But the Secretary to the Government Savings Bank hearing of my having obtained an employment omitted my name from the revised list of discharged Officers recommended for gratuity, without being aware, perhaps, of the *peculiar nature* of the appointment or the *interval* after which it was obtained.

I beg therefore humbly to urge that as I had to remain unemployed for some months, and instances are not rare of persons joining permanent appointments even in a Government Office a day or two after (and sometimes before) drawing the gratuity allowance, His Excellency will be pleased not to debar me from a benefit now accorded to all who, after a service of several years in a Government Office, have the misfortune of remaining unemployed for some months.

His Excellency may be pleased to consider that if the Secretary's recommendation had been submitted to him only six months after the loss of my appointment (instead of one year) there would have been no bar to my receiving a gratuity; and that the fact of a temporary employment under a private Company after eight months cannot disqualify me, therefore, from availing of the usual award.

Under the above considerations His Excellency may be kind enough to do justice to me, otherwise the loss of so many years' Government service will be keenly felt.

In conclusion I humbly pray that the original Certificate when no longer required may be returned to me, together with the favorable orders of His Excellency.

Forwarded to the Civil Pay Master, Calcutta, for report. Original papers to be returned.

CIVIL PAY MASTER'S OFFICE.

Fort William, the 8th March 1862.

On a reference to the Books of this Office, Baboo Sreenanth Ghose appears to have been continuously employed in the Government Savings Bank from 6th May 1850 to 19th October 1860. He drew a monthly salary of Rupees 50 at the time of his discharge.

FINANCIAL DEPARTMENT.

Fort William, the 20th March 1862.

RESOLUTION.—The Governor-General in Council observes that the name of Baboo Sreenanth Ghose appears in the Statement submitted by the late Sub-Treasurer, of the Clerks, &c. who were discharged on the abolition of the Military Branch of the Government Savings Bank, but that Officer did not recommend the grant of a gratuity to the present applicant on the ground that he had received employment under the Railway Company. It is now stated by the applicant that he obtained this employment eight months after the abolition of his Office, which fact, His Excellency in Council thinks, entitles him to a gratuity seeing that under the Rules a gratuity is grantable if a servant is out of employ for six months after his discharge.

But His Excellency in Council observes the Sub-Treasurer's reason for excluding Sreenanth Ghose from his recommendation for a gratuity raises a question as to whether *private* employment within the usual six months, or after, can be held to debar a servant from any claim to a gratuity. From the tenor of the Orders passed in this Department on the 26th February 1858, in the case of Mr. E. D'Souza, Head Clerk and Examiner in the Chief Engineer's Office, Madras His Excellency in Council observes that a servant of Government can be debarred from a gratuity only when he is provided with Government employment within the usual six months, so that his employment whether in a Government Office after that time or in a private Office within or after that time cannot bar his claim to gratuity. The present applicant was therefore clearly "out of employ," in the sense in which the terms are used in the Rules, at the time that Mr. Harvey applied for gratuities for the Assistants of the Savings Bank, and should have then received his gratuity. His Excellency in Council is accordingly pleased to sanction the grant to him of a gratuity of four months' pay.

In cancellation of Notification of this Department, under date the 9th March 1861, relative to the Stamps required on Powers of Attorney either for the realization of interest on, or for the sale of Government Promissory Notes, notice is hereby given that Powers of Attorney, executed after the passing of Act X. of 1862 must be on Stamped Paper of the value prescribed in Article 43, Schedule A. of Act X. of 1862.

Schedule A., 43.—“Letter or Power of Attorney not being of the kinds provided for in Schedule B.”

“If the Letter or Power of Attorney be for the performance of one act only, and the value of the property to be dealt with be expressed in the Letter or Power and do not exceed Rupees 500

Copy of the Standing Counsel's Opinion on the point, dated 10th September 1862, is subjoined:—

OPINION.

I entirely agree in the conclusions in the within letter of July 29th. It is very clear that Schedule B, Clause 3, does not in any manner relate to these Powers of Attorney, but only to such as are required in the conduct of cases before Courts of Justice or Revenue Authorities; therefore the

Stamp to be required in all cases for Powers to draw interest executed after Act X. of 1862 should be of (4) four Rupees except in the excepted instance at the end of Clause 43 of Schedule A, in which it ought to be a Stamp of one Rupee.

Notice to Claimants to Share in the Delhi and Lucknow Prize Properties.

PARTIES having claims on account of themselves, of those who served under them, of the Estates of deceased Officers and Soldiers, or of their Constituents to share in either of the above Prizes are requested to submit them, without further delay, accompanied by the necessary proofs, to the Prize Department of the Examiner's Office, No. 7, Middleton Row, Calcutta.

2. From the absence of the usual Rolls (the Returns during the period of the Mutiny reached very irregularly, and are, in very many cases, altogether wanting) it has been found impossible to compile a List of the parties entitled to share in the Delhi and Lucknow Prizes, and the Adjutant-General's Department has been unable to furnish a List of those entitled to additional shares by reason of their having held staff appointments and commands.

3. The number of persons entitled to share can therefore only be ascertained through the claims, supported by proofs, which are submitted. It is known that many claims have not been sent in (in the case of Corps and Detachments a report has been made to Government), and until the parties or their representatives submit them a final distribution of either the Delhi and Lucknow Prize cannot be made.

4. Each claim sent in must be supported by a Certificate shewing the dates between which the party was present at the operation for which the claim is made.

5. When additional shares beyond those of the Regimental rank of the party are claimed, a Certificate from a Staff or Commanding Officer must be attached, shewing the nature of the service and the date on which the claimant took charge and relinquished the duty.

6. When claims are submitted by representatives, a Power of Attorney must be sent, and in the case of Estates, when the President of the Committee of Adjustment or the Administrator-General does not claim, proof of the party being entitled to administer must be shewn.

7. It has been decided by the Law Authorities that there is no limit to the period during which claims can be submitted. It is therefore necessary to ascertain the number of probable claimants before a final settlement or even a second distribution can be made.

8. The distribution of the Pegu Prize is delayed by the absence of any Rolls of claimants of the Royal Navy. These have long since been applied for.

Notification.

In cancellation of Notification of this Department, under date the 9th March 1861, relative to the Stamps required on Powers of Attorney either for the realization of interest on, or for the sale of Government Promissory Notes, notice is hereby given that Powers of Attorney executed after the passing of Act X. of 1862 must be on Stamped Paper of the value prescribed in Article 43, Schedule A. of Act X. of 1862.

Schedule A., 43.—“ Letter or Power of Attorney not being of the kinds provided for in Schedule B.” ... Rs. 4

“ If the Letter or Power of Attorney be
“ for the performance of one act only, and
“ the value of the property to be dealt with
“ be expressed in the Letter or Power and
“ do not exceed Rupees 500 ... ” 1

Copy of the Standing Counsel's Opinion on the point, dated 10th September 1862, is subjoined :—

OPINION.

I entirely agree in the conclusions in the within letter of July 29th. It is very clear that Schedule B, Clause 8, does not in any manner relate to these Powers of Attorney, but only to such as are required in the conduct of cases before Courts of Justice or Revenue Authorities; therefore the

Stamp to be required in all cases for Powers to draw interest Executed after Act X. of 1862 should be of (4) four Rupees except in the excepted instance at the end of Clause 43 of Schedule A, in which it ought to be a Stamp of one Rupee.

Notice to Claimants to Share in the Delhi and Lucknow Prize Properties.

PARTIES having claims on account of themselves or those who served under them, of the Estates of deceased Officers and Soldiers, or of their Constituents to share in either of the above Prizes are requested to submit them, without further delay, accompanied by the necessary proofs, to the Prize Department of the Examiner's Office, No. 7, Middleton Row, Calcutta.

2. From the absence of the usual Rolls (the Returns during the period of the Mutiny reached very irregularly, and are, in very many cases, altogether wanting) it has been found impossible to compile a List of the parties entitled to share in the Delhi and Lucknow Prizes, and the Adjutant-General's Department has been unable to furnish a List of those entitled to additional shares by reason of their having held staff appointments and commands.

3. The number of persons entitled to share can therefore only be ascertained through the claims, supported by proofs which are submitted. It is known that many claims have not been sent in (in the case of Corps and Detachments a report has been made to Government), and until the parties or their representatives submit them a final distribution of either the Delhi and Lucknow Prize cannot be made.

4. Each claim sent in must be supported by a Certificate showing the dates between which the party was present at the operation for which the claim is made.

5. When additional shares beyond those of the Regimental rank of the party are claimed, a Certificate from a Staff or Commanding Officer must be attached, showing the nature of the service and the date on which the claimant took charge and relinquished the duty.

6. When claims are submitted by representatives, a Power of Attorney must be sent, and in the case of Estates, when the President of the Committee of Adjustment or the Administrator-General does not claim, proof of the party being entitled to administer must be shown.

7. It has been decided by the Law Authorities that there is no limit to the period during which claims can be submitted. It is therefore necessary to ascertain the number of probable claimants before a final settlement or even a second distribution can be made.

8. The distribution of the Pegu Prize is delayed by the absence of any Rolls of claimants of the Royal Navy. These have long since been applied for.

No. 935 of 1862.—With reference to Government General Order No. 1048 of the 19th November 1861, the following Military Letter from the Right Hon'ble the Secretary of State for India, to His Excellency the Right Hon'ble the Governor General of India in Council, No. 239, dated India Office, London, the 2nd July 1862, is published for general information:—

MILITARY.
No. 239.

TO HIS EXCELLENCY THE RIGHT HON'BLE THE GOVERNOR GENERAL OF INDIA IN COUNCIL.

MY LORD,—“ I HAVE received and considered in Council your letter No. 154 of the 3rd May last, transmitting further correspondence connected with the conduct of Captain Maxwell and Lieutenants Orchard and Hare.

2. I observe that Captain Maxwell is stated to have submitted an earnest and proper solicitation, praying your Government to overlook the impropriety of which he was guilty, and of which he is fully conscious, and that he has also interceded in favor of the other two Officers, and has, in extenuation of their conduct, attributed their proceedings to the influence of his own example.

3. Under these circumstances, the Commander-in-Chief considers that discipline has been sufficiently vindicated by the publicity with which the Government have marked its disapprobation of the conduct of these Officers, and suggests that an act of clemency might now be very appropriately exercised in their favor.

4. Your Government support this appeal, and I shall therefore not object to your allowing to Captain Maxwell and Lieutenants Orchard and Hare the privilege of entering the Staff Corps upon their original applications.”

I have, &c.,

FINANCIAL DEPARTMENT.—No. 1809A.—*Nynee Tal, the 26th September 1862.*—The following Extract from the Proceedings of the Government of India, in the Financial Department, No. 228A, dated the 8th instant, is re-published for general information:—

No. 228A.—Extract from the Proceedings of the Government of India, in the Financial Department, dated 8th September 1862.

Read the following letters from the Auditor-General of India.

Letter No. 412 of 16th July 1862, forwarding an enquiry from the Deputy Auditor and Accountant-General, Bombay, as to whether he should distribute to Treasury Officers printed blank Budget Forms as he did last year, and also arrange for the submission of a printed Budget for 1863-64, or whether Forms may be expected from Calcutta.

Letter No. 598 of 13th August 1862, forwarding a somewhat similar application from the Deputy Auditor and Accountant-General, Bengal, on behalf of the Chief Commissioner of British Burmah.

Letter No. 295 of 28th June 1862, } submit-
 „ „ 570 of 9th August „ } ting a
 proposition by the Deputy Auditor and Accountant-General, Bengal, which is supported, in a great measure, by an accompanying recommendation from the Board of Revenue for transferring to the several Deputy Auditors and Accountants-General and Civil Pay Masters the preparation of various parts of the Annual Estimates which are now framed in the first instance, by District Officers.

RESOLUTION.—The Governor-General in Council observes that the Board of Revenue, and, in a greater degree, the Deputy Auditor-General, Bengal, have misapprehended one object of the Budget, in the remark that Salaries, Establishments, and some other items can be more correctly estimated by the Deputy Auditor-General and the Civil Pay-Master than by District Officers.

2. Had the sole object been to obtain correct Estimates, it would not have been necessary to supersede the former system, by which the Esti-

mates were wholly prepared in the Offices of the Deputy Auditors and Accountants-General, and to which system the Government would, in fact, revert by complying with the suggestions of the Board of Revenue and the Deputy Auditor-General, Bengal. But it is a main object to obtain an Estimate in full detail from the Disbursing, not from the Checking Officer, the province of the latter being to correct the Returns of the former.

3. The requirement of Budget Estimates from the District Heads of Departments ensures a consideration of all items of expenditure in detail in the District where it is best understood, and tends to promote intelligent acquaintance with the accounts.

4. For Estimates of Salaries and fixed Establishments, the Deputy Auditor-General or the Board of Revenue can obviously have no better ground-work than a Statement prepared by each Disbursing Officer from the existing scale of actual expenditure at the time the Estimate is prepared. The District Officer may not be responsible for this, and the details of distribution may vary from one year to another, but the totals will be the same, and any variations in them will be checked and explained by the Deputy Auditors.

5. To urge that the Government alone can tell the number of Uncovenanted Deputy Collectors is beside the question. The Government wish to know the actual number of *employees* and the actual expense. If they propose to increase or diminish that number, they will state it in their review of the Budget Returns. If, however, the Board or the Deputy Auditor-General has any doubt, there is nothing to hinder an application to Government for information.

6. The difficulty felt by the Deputy Auditor-General and the Board of Revenue regarding the distribution, by debits, of one salary to different Departments may perhaps arise from a mistaken notion that expenditure under the several heads in the Estimate is to be rigidly restricted to the District distribution, but this was never intended except under such heads as are absolutely local, such as fixed and temporary Establishments, Contingent charges, and the like.

7. The general principle intended by the Budget and Audit Committee was that Heads of Departments should submit well-considered Budgets based upon actual and detailed data obtained from their Subordinates, thus exhibiting expenditure in a form best calculated, by combining locality and detail, to facilitate its review by Government.

8. Again, to throw the preparation of Estimates upon the Civil Pay-Master is to reverse the entire system. That Office is one of check and can be used to any extent which is thought advisable by this Department; but what is required by the Budget is an Estimate, not by the Checking but by the Executive Departments of the funds required for the service of the year within which they undertake to confine the expenditure.

9. In this view, one exception only may be made as to requiring an Estimate from the Civil Pay-Master, his Office contains the latest and complete information of the state of the Pension List, and the Estimate of Pensions may accordingly be framed by him, and submitted to the Deputy Auditor and Accountant-General.

10. In other respects no relaxation of the system of District Estimates can be permitted.

11. At the same time the difficulties of District Officers and of the Deputy Auditor-General are

recognized, and to a certain extent they may be remedied.

12. The chief if not the sole difficulty, and the most fruitful cause of delay in submitting the Estimates, consists, it would appear, in the necessity, under existing orders, of inserting opposite each class or grade of salary the actual expenditure for that class or grade for the year last completed, instead of for the head to which that class belongs.

13. For example, under the head Salaries the Estimate for a Collector's District shows the following details in the following Form:—

	Number.			Actuals.	Estimates.	
	1861-62.	1862-63.	1863-64.	1861-62.	1862-63.	1863-64.
<i>Salaries and Expenses.</i>				Rs.	Rs.	Rs.
1. Collectors.						
2. Deputy Commissioners.						
3. Assistant Commissioners.						
4. Extra Assistant Commissioners.						
5. Deputy Collectors.						
6. Assistant Collectors.						
7. Uncovenanted Deputy Collectors.						

In this Form the Estimate for 1863-64 would exhibit in the column for 1861-62 the actuals for that year for each item, and in the column for 1862-63 the figures of the sanctioned Estimate for that year *plus* any authorized additions thereto. The number and money columns for 1862-63 can be readily filled in by the District Officer and checked by the Deputy Auditor-General from their respective copies of the Estimate for 1862-63, in which copies alterations ordered during the year will have been noted. But the Treasury Officer cannot for 1861-62, or year last completed, readily supply the actual expenditure under salaries and expenses as distinguished from Establishments (still less the particulars for each of the seven items above detailed), nor can the Deputy Auditor-General give the detail so readily as the aggregate of actual expenditure under salaries and expenses. The aggregate, therefore, need only be supplied by him in the column for the year last completed, which, for the next Budget, will be the column for 1861-62. But the number column for 1861-62 must be filled up, if possible, for each of the seven items by the Treasury Officer.

14. Similarly, with the next two Divisions in the Estimate

<i>Collectors or Head Treasury Establishments.</i>	
8. Clerks from Rupees 50 to Rupees 300.	
9. Ditto below " 50	
10. Treasury Guard

of a Collector's District; for the items, as per margin, numbered 8 to 11 and 14 to 16, the money columns for only 1862-63 and 1863-64, and the numbers for all three years would be filled in by the District Officers, while only the aggregate of actual expenditure, under each Division of charge for 1861-62, would be entered by the Deputy Auditor-General. The actuals of items 12, 13, and 17

would be entered by the Deputy Auditor-General. The actuals of items 12, 13, and 17

for 1861-62 might, however, be shewn by District Officers as marginally indicated.

15. For the last two divisions in the Estimate of a Collector's District, *viz.*, Temporary Establishments and Miscellaneous, the actuals for 1861-62 must needs be given in the same detail as at present.

16. The preceding illustrations will apply also to the Estimates of Judges, Magistrates, &c.

17. For each coming year, as for the year 1863-64, the Estimates both as to numbers and amounts must be in the same detail as hitherto.

18. A special injunction is necessary, however, with regard to Police. It is required that the Estimates for Police should shew the total or gross charge to be incurred under that head, including the cost of Guards supplied to the several Departments. But as the charge for these Guards will be separately provided for in the several Departmental Estimates, it should be shewn in an Appendix in detail of Offices, the aggregate charge being entered at foot of the Abstract of the Police Budget in reduction of the Departmental expenditure, thus :—

ABSTRACT OF POLICE BUDGET.

1. Presidency Police.
2. Mofussil Police.
3. Military Police.
 - a. Inspector.
 - b. Battalions or Regiments.
4. Dacoity and Thuggee.

GROSS TOTAL.

Deduct.

Guards payable by other Departments, as per Appendix.

NET TOTAL.

19. The Revenue Estimates for 1862-63 did not in all cases shew the total receipts for Police, which can be set off against the expenditure of the Police Department. This defect also should be remedied. The payments by Departments for the Police supplied to them should however be excluded from the receipts, as they will, under paragraph 18, be deducted from the gross amount of the Police Budget.

20. With these general instructions for the guidance of Deputy Auditors-General, it suffices to add, as respects Forms, that they were issued, in the first instance, as a guide to Departments generally as to the degree of detail required, and to ensure uniformity of action. But so long as the Budget Estimates are submitted by the Heads of Departments and the Deputy Auditors-General, in the standard Forms issued by the Auditor-General for 1862-63, those Authorities are at perfect liberty to procure the details from the local Officers in such Forms as they may find most convenient, without departing from the principles above laid down, or failing in the requirements above prescribed.

21. It is of essential importance, however, that delay should be obviated by no new check being introduced, no additional Form prescribed, or references permitted, which are likely to add to the period necessary for the preparation of the Budget, or to interfere with its punctual submission at the due date.

22. The Deputy Auditors will submit a Memorandum of the charges in their Budget which are payable elsewhere, in India or in England, to guide the preparation of the X. Y. Z. Statements.

Ordered, that a copy of the foregoing be forwarded to the Home and Foreign Departments to each Local Government, to the Auditor-General, to the several Deputy Auditors and Accountants-General, and to the several Civil Pay-Masters.

MILITARY Officers on detached employ, and others, who individually draw their salaries, are requested to affix to all future Receipts for the amount of their Pay, a Receipt Stamp of the value of one anna, in accordance with Government Notification dated 16th August 1862.

Notice to Claimants to Share in the Delhi and Lucknow Prize Properties.

PARTIES having claims on account of themselves, of those who served under them, of the Estates of deceased Officers and Soldiers, or of their Constituents to share in either of the above Prizes are requested to submit them, without further delay, accompanied by the necessary proofs, to the Prize Department of the Examiner's Office, No. 7, Middleton Row, Calcutta.

2. From the absence of the usual Rolls (the Returns during the period of the Mutiny reached very irregularly, and are, in very many cases, altogether wanting) it has been found impossible to compile a List of the parties entitled to share in the Delhi and Lucknow Prizes, and the Adjutant-General's Department has been unable to furnish a List of those entitled to additional shares by reason of their having held staff appointments and commands.

3. The number of persons entitled to share can therefore only be ascertained through the claims, supported by proofs, which are submitted. It is known that many claims have not been sent in (in the case of Corps and Detachments a report has been made to Government), and until the parties or their representatives submit them a final distribution of either the Delhi and Lucknow Prize cannot be made.

4. Each claim sent in must be supported by a Certificate shewing the dates between which the party was present at the operation for which the claim is made.

5. When additional shares beyond those of the Regimental rank of the party are claimed, a Certificate from a Staff or Commanding Officer must be attached, shewing the nature of the service and the date on which the claimant took charge and relinquished the duty.

6. When claims are submitted by representatives, a Power of Attorney must be sent, and in the case of Estates, when the President of the Committee of Adjustment or the Administrator-General does not claim, proof of the party being entitled to administer must be shewn.

7. It has been decided by the Law Authorities that there is no limit to the period during which claims can be submitted. It is therefore necessary to ascertain the number of probable claimants before a final settlement or even a second distribution can be made.

8. The distribution of the Pegu Prize is delayed by the absence of any Rolls of claimants of the Royal Navy. These have long since been applied for.

Notification.

In cancellation of Notification of this Department, under date the 9th March 1861, relative to the Stamps required on Powers of Attorney, either for the realization of interest on, or for the sale of Government Promissory Notes, notice is hereby given that Powers of Attorney executed after the passing of Act X. of 1862 must be on Stamped Paper of the value prescribed in Article 43, Schedule A. of Act X. of 1862.

Schedule A., 43.—“ Letter or Power of Attorney not being of the kinds provided for in Schedule B.” Rs. 4

“ If the Letter or Power of Attorney be
“ for the performance of one act only, and
“ the value of the property to be dealt with
“ be expressed in the Letter or Power and
“ do not exceed Rupees 500 ... ” 1
Copy of the Standing Counsel's Opinion on the
point, dated 10th September 1862, is subjoined :

OPINION.

I entirely agree in the conclusions in the within letter of July 29th. It is very clear that Schedule B, Clause 8, does not in any manner relate to these Powers of Attorney, but only to such as are required in the conduct of cases before Courts of Justice or Revenue Authorities ; therefore the Stamp to be required in all cases for Powers to draw interest executed after Act X. of 1862 should be of (4) four Rupees except in the excepted instance at the end of Clause 43 of Schedule A, in which it ought to be a Stamp of one Rupee.

MARINE DEPARTMENT.

No. 528

Port William, the 17th October 1862

The following Rules for entering the Harbour of Port Blair are published for general information —

The Penal Settlement of Port Blair on the East side, and about four leagues from the South end of the South Great Andaman, is in Latitude 11° 43' North, and Longitude 92° 47' East from Greenwich; it has a spacious and safe harbour extending a considerable distance in land, the entrance is fronted by Ross Island, which extends about one mile in length in a N. N. E. and S. S. W. direction, its greatest breadth being about 1,000 yards, and its height above the level of the sea about 250 feet. Ross Island is easily distinguished from the surrounding land by its cleared appearance and the Houses on its summit, which, when the Sun shines on them, are visible for a distance of eleven to twelve miles. This Island is the principal depôt of the Settlement and the residence of the Superintendent.

The Northern entrance to the harbour is between the North point of Ross Island and a point on the main land called "North Point," a distance of 1½ miles across, having deep water from within 100 yards of the shore on either side.

Vessels entering the North Channel should make the North end of Ross Island, keeping at a convenient distance from it in not less than 10 fathoms, and stand to the Westward until the Channel between Ross Island and the main land is well open in about 25 fathoms, and the landing place and store-houses on the West side of Ross Island about S. E. Magnitude then stands for the anchorage about S. S. E., and anchor off the town in from 9 to 15 fathoms sandy bottom about 500 yards from the beach with the Superintendent's house on the hill bearing from E. by N. W., E. N. E. Magnitude and Atalanta point about West.

The line of shoal water off the N. and N. W. end of Ross Island is marked by small red buoys

inside of which it would not be prudent to burrow.

The South Channel formed between the South end of Ross Island and the Main is narrow, and should only be attempted by Steamers or Sailing Vessels with a steady fair wind.

"Sesostris Reef," a dangerous patch, having only 1½ fathoms, in some parts rocky, uneven ground, bears S½ E. Magnitude about three-fourths of a mile from the South end of Ross Island, it is about 600 to 800 yards in extent, and is marked by a red buoy which should be given a good berth as the ground about is rocky and uneven.

Vessels entering this Channel from the Southward with a fair wind should, when about two miles to the Southward of Ross Island, at a convenient distance from the main land, keep the highest point of Ross Island about N. by E. Magnitude and steer for it, passing well to the Westward of the Reef buoy; and with the buoy bearing S. 25 E. Magnitude and the South end of Ross Island N. by E. about half a mile distance, the Channel between Ross Island and the Main will be well open when a N. N. W. course will lead up the Channel to the anchorage, keeping as near Mid Channel as possible.

During the strength of the S. W. Monsoon the wind generally hangs well to the Southward and often blows fresh and steadily along shore for some days with a current to the North-Eastward. Vessels coming from the Northward should therefore make the land to the Southward of Ross Island if possible and run up.

Wood and fresh water are easily obtained; and for Vessels having lost spars, or received other serious damage in the Bay or in the vicinity of the Andamans, Port Blair affords a very desirable place of shelter where their defects may be made good.

By Order,

JOHN G. REDDIE.

**Notice to Claimants to Share in the
Delhi and Lucknow Prize
Properties.**

PARTIES having claims on account of themselves, of those who served under them, of the Estates of deceased Officers and Soldiers, or of their Constituents to share in either of the above Prizes are requested to submit them, without further delay, accompanied by the necessary proofs, to the Prize Department of the Examiner's Office, No 7, Middleton Row Calcutta.

2 From the absence of the usual Rolls (the Returns during the period of the Mutiny reached very irregularly, and not in very many cases, altogether wanting) it has been found impossible to compile a List of the parties entitled to share in the Delhi and Lucknow Prizes, and the Adjutant-General's Department has been unable to furnish a List of those entitled to additional shares by reason of their having held staff appointments and commands.

3 The number of persons entitled to share can therefore only be ascertained through the claims, supported by proofs which are submitted. It is known that many claims have not been sent in (in the case of Corps and Detachments a report has been made to Government), and until the parties or their representatives submit them a final distribution of either the Delhi and Lucknow Prize cannot be made.

4. Each claim sent in must be supported by a Certificate shewing the dates between which the party was present at the operation for which the claim is made.

5. When additional shares beyond those of the Regiment or Rank of the party are claimed, a Certificate from a Staff or Commanding Officer must be attached, shewing the nature of the service and the date on which the claimant took charge and relinquished the duty.

6 When claims are submitted by representatives, a Power of Attorney must be sent, and in the case of Estates, when the President of the Committee of Adjustment or the Administrator-General does not claim, proof of the party being entitled to administer must be shown.

7 It has been decided by the Law Authorities that there is no limit to the period during which claims can be submitted. It is therefore necessary to ascertain the number of probable claimants before a final settlement or even a second distribution can be made.

8. The distribution of the Pegu Prize is delayed by the absence of any Rolls of claimants of the Royal Navy. These have long since been applied for.

MARINE DEPARTMENT.

No. 528.

Fort William, the 17th October 1862.

The following Rules for entering the Harbour of Port Blair are published for general information:—

The Penal Settlement of Port Blair, on the East side, and about four leagues from the South end of the South Great Andaman, is in Latitude 11° 43' North, and Longitude 92° 47' East from Greenwich; it has a spacious and safe harbour extending a considerable distance inland; the entrance is fronted by Ross Island, which extends about one mile in length in a N. N. E. and S. S. W. direction, its greatest breadth being about 1,000 yards, and its height above the level of the sea about 250 feet. Ross Island is easily distinguished from the surrounding land by its cleared appearance and the Houses on its summit, which, when the Sun shines on them, are visible for a distance of eleven to twelve miles. This Island is the principal depôt of the Settlement and the residence of the Superintendent.

The Northern entrance to the harbour is between the North point of Ross Island and a point on the main land called "North Point," a distance of $1\frac{1}{2}$ miles across, having deep water from within 100 yards of the shore on either side.

Vessels entering the North Channel should make the North end of Ross Island, keeping at a convenient distance from it, in not less than 10 fathoms, and stand to the Westward until the Channel between Ross Island and the main land is well open in about 25 fathoms, and the landing place and store-houses on the West side of Ross Island about S. E., Magnetic, then stand for the anchorage about S. S. E., and anchor off the town in from 9 to 15 fathoms, sandy bottom, about 500 yards from the beach, with the Superintendent's house on the hill bearing from E. by N. to E. N. E. Magnetic, and Atalanta point about West.

The line of shoal water off the N. and N. W. end of Ross Island is marked by small red buoys inside of which it would not be prudent to borrow.

The South Channel, formed between the South end of Ross Island and the Main, is narrow, and should only be attempted by Steamers or Sailing Vessels with a steady fair wind.

"Sesosatis Reef," a dangerous patch, having only $1\frac{1}{2}$ fathoms in some parts, rocky, uneven ground, bears S $\frac{1}{2}$ E. Magnetic, about three-fourths of a mile from the South end of Ross Island, it is about 600 to 800 yards in extent, and is marked by a red buoy which should be given a good berth as the ground about is rocky and uneven.

Vessels entering this Channel from the Southward with a fair wind should, when about two miles to the Southward of Ross Island, at a convenient distance from the main land, keep the highest point of Ross Island about N. by E. Magnetic, and steer for it, passing well to the Westward of the Reef buoy, and with the buoy bearing S. 25 E. Magnetic, and the South end of Ross Island N. by E. about half a mile distance, the Channel between Ross Island and the Main will be well open when a N. N. W. course will lead up the Channel to the anchorage, keeping as near Mid Channel as possible.

During the strength of the S. W. Monsoon the wind generally hangs well to the Southward and often blows fresh and steadily along shore for some days with a current to the North-Eastward. Vessels coming from the Northward should therefore make the land to the Southward of Ross Island, if possible, and run up.

Wood and fresh water are easily obtained; and for Vessels having lost spars, or received other serious damage in the Bay or in the vicinity of the Andamans, Port Blair affords a very desirable place of shelter where their defects may be made good.
